## End-of-Lease Chromebook Deprovisioning Waiver

This waiver is to terminate the Chromebook management and filtering lease between the Baldwin-Woodville School District and:

Parent Name (print): \_\_\_\_\_

Student Name (print): \_\_\_\_\_

For the following Chromebook Model:

Check one: ☐ Lenovo 100e ☐ Dell 3110

Serial Number: \_\_\_\_\_

(Serial number can be found a sticker on the bottom of the Chromebook Lenovo =S/N, Dell=ST. Otherwise by turning the device on and at the login screen press ALT+V and find the serial number in the top right corner)

By signing this waiver you are agreeing to have the above Chromebook deprovisioned of all software managed by the Baldwin-Woodville School District. You acknowledge the device will no longer have the ability to be updated with the district provided software and apps. Also this Chromebook will not have any internet filtering and protections in place, allowing for unrestricted access to the internet outside of the Baldwin-Woodville School Network.

If the student is not graduating, we are asking you to lease a new device in the new school year. Provisioned Chromebooks with school management allow us to push out software and apps that students need for school work and testing at no cost to you. The school web filters also help protect your child from harmful content.
