

RETURN TO SCHOOL SURVEY

Parents- 9.25.2021

Which building/buildings do your children attend?

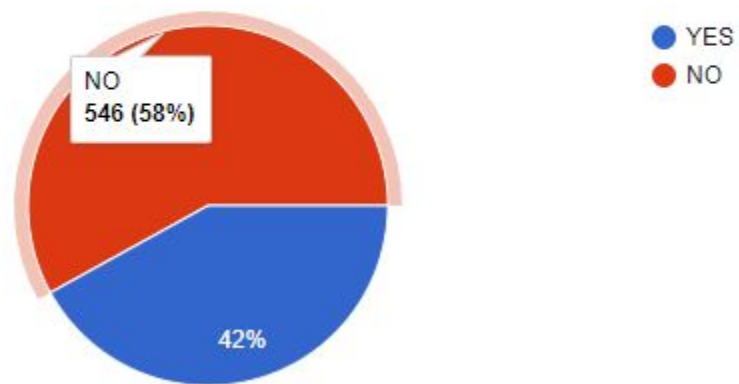

941 responses

Does the current plan need to be changed? If the plan does not change, public health could potentially close a school building or class temporarily if cases were to continue to rise.

941 responses

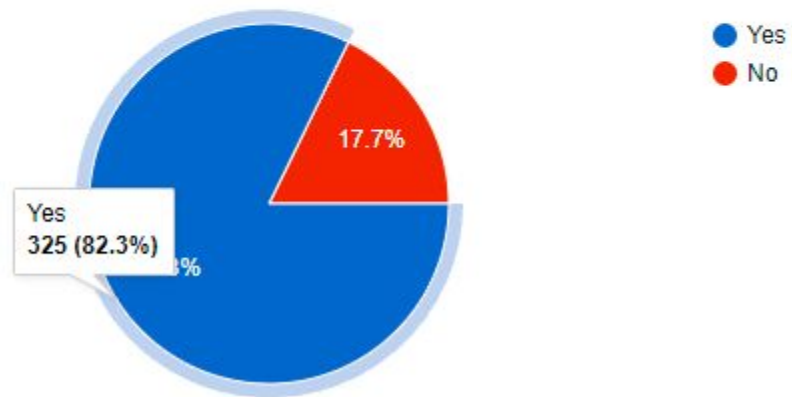

Change

Should masks be required at school?

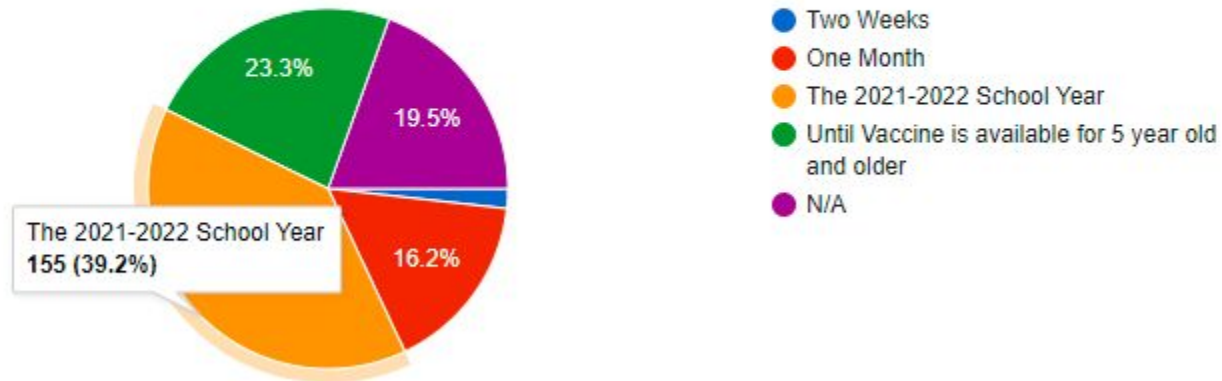

395 responses

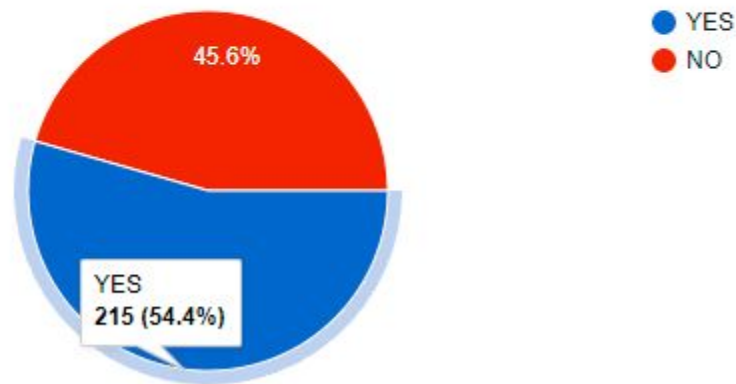

If yes, for how long?

395 responses

Instead of other mitigation strategies such as masks, should a school building, grade level, or classroom teach virtually for a week to 10 days once they reach a certain level of positive cases or illnesses?

395 responses

Do we need to implement all the mitigation strategies that we had in place last year, masks, cohorts, contact tracing, and limiting the number of students on a bus?

395 responses
