## Change

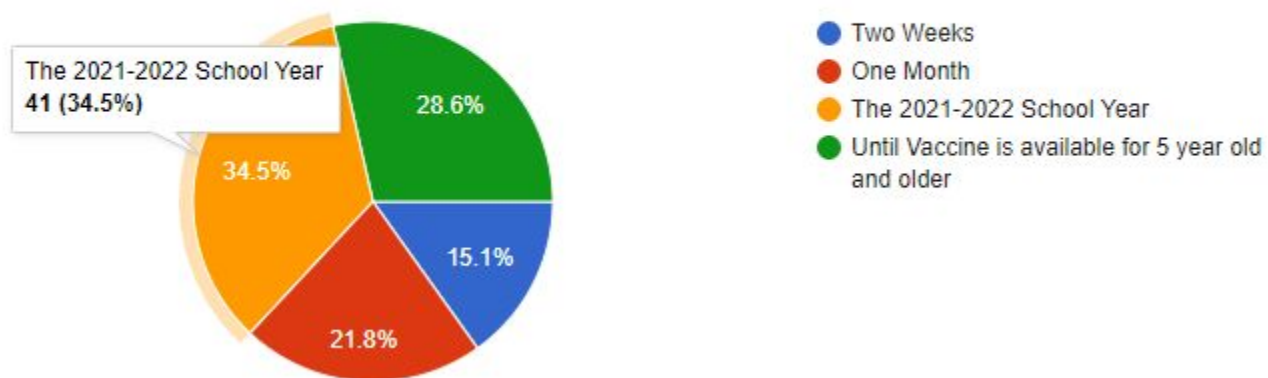

Should masks be required at school?

119 responses

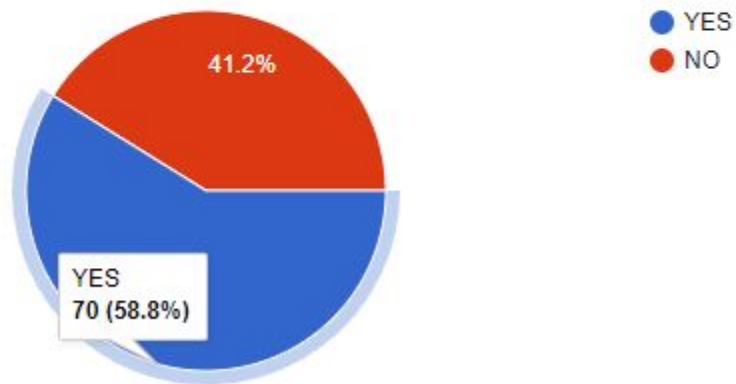

If yes, for how long?

119 responses

Instead of other mitigation strategies such as masks, should a school building, grade level, or classroom teach virtually for a week to 10 days once they reach a certain level of positive cases or illnesses?

119 responses

Do we need to implement all the mitigation strategies that we had in place last year, masks, cohorts, contact tracing, and limiting the number of students on a bus?
