

## Saving more

Preparing for your future needs

More money for you,  
means more savings for  
your retirement and future  
health care needs.

Your HSA =

Bigger Paychecks + More savings for retirement

## Saving with your HSA

Did you know that by contributing to your HSA you could save hundreds of dollars in taxes each year? That's right. You can put money into your HSA using pre-tax payroll deductions, which reduces your taxable income. Because you're taxed on less income, you take home a bigger paycheck while saving more for your future.

### Hooray for your HSA—just look at what you could save each year!

HSA Contribution	Income	
	\$40,000	\$80,000
<b>Single Taxpayer</b>		
\$500	\$103	\$153
\$1,000	\$207	\$307
\$1,500	\$310	\$460
\$2,000	\$413	\$613
\$3,300*	\$640	\$1,011
<b>Head of Household with 1 Dependent Child</b>		
\$1,000	\$207	\$307
\$2,000	\$413	\$613
\$3,000	\$620	\$920
\$4,000	\$826	\$1,226
\$6,550*	\$1,353	\$2,008
<b>Married Couple with No Dependents</b>		
\$1,000	\$207	\$207
\$2,000	\$413	\$413
\$3,000	\$620	\$620
\$4,000	\$826	\$826
\$6,550	\$1,180	\$1,353
<b>Married Couple with 2 Dependent Children</b>		
\$1,000	\$157	\$207
\$2,000	\$313	\$413
\$3,000	\$470	\$620
\$4,000	\$626	\$826
\$6,550*	\$1,025	\$1,353

\*Maximum contribution allowable for 2014. Please note: This is an illustration of possible tax savings only. This is not an exact calculation of your tax savings. This illustration assumes: all income is from wages and salaries and taxpayers use the standard deduction. This illustration is based on calculations using the EBIA Tax Calculator, found at [www.ebia.com](http://www.ebia.com).
